

Cancer Genomic Profiling (CGP) Tests Information

Please read the following information thoroughly before undergoing cancer genomic profiling.

1. Types of Test

We conduct the following cancer gene panel tests at this hospital.

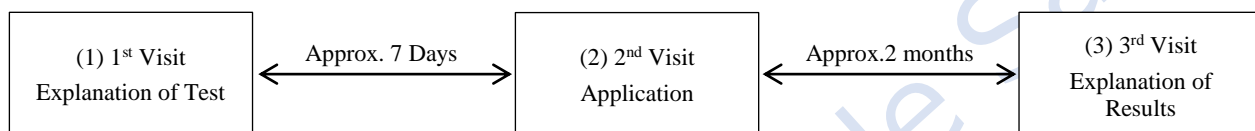

CGP Tests Covered by National Health Insurance	OncoGuide™ NCC Onco Panel System	FoundationOne® CDx Cancer Genome Profile	FoundationOne® Liquid CDx Cancer Genome Profile
Specimen Type	Tissue + Blood	Tissue	Blood
No. of Genes Investigated	124	324	324
Cost	Please refer to section 3. "Payment for CGP Tests."		
Eligibility	<ul style="list-style-type: none"> • Patients with solid tumors for which there is no standard treatment. • Patients with solid tumors who have been diagnosed with locally advanced or metastatic cancer and have completed standard treatment or are expected to complete treatment. • Patients who, based on their overall physical condition, organ function, and other factors, are determined by their attending physician to have a high likelihood of being eligible for chemotherapy after undergoing this test, in accordance with guidelines on chemotherapy from relevant academic societies, etc. <p>For FoundationOne® Liquid CDx Cancer Genomic Profiling, in addition to the above, patients who fall into one of the following categories.</p> <ul style="list-style-type: none"> • Patients who do not have a solid tumor specimen or find it difficult to prepare one. • Patients who did not obtain clear results of CGP Tests performed on tumor cell specimens collected from solid tumors. 		

CGP Tests Not Covered by National Health Insurance	Guardant360 (G360)
Specimen Type	Blood
No. of Genes Investigated	74
Cost	Please refer to section 3. "Payment for CGP Tests."
Eligibility	<ul style="list-style-type: none"> • Patients who do not have a solid tumor specimen or who find it difficult to have one prepared. • Patients who are resistant to standard treatment. • Patients who have had two or more gene panel tests. <p>* Treatment based on the results of G360 will not be covered by National Health Insurance-</p>

There are specific application requirements for this test. Therefore, we will inform you of the most appropriate test to take based on your condition at the time of your visit. Please note that in some cases, we may be unable to accommodate your request for a specific test.

2. CGP Tests Clinic

- CGP Test requires an appointment.
- The first visit for CGP Tests (as a second opinion) costs ¥44,000 (incl. tax). There is a separate inspection fee for CGP tests.
- Patients are required to come to the hospital themselves for the tests.
- You are required to visit CGP Tests Clinic three times: (1) to receive an explanation of the test, (2) to submit your application, and (3) to receive an explanation of the results.
- Patients should be accompanied by someone, especially for the first visit, as important matters will be explained regarding the test.

- ¥44,000 (incl. tax)
- Please note that no diagnosis/treatment/medication/testing will be carried out under insurance.

- Payment required.
- Not accepted during hospitalization at this or any other hospital.

- Assessment fees required.
- Not provided while hospitalized elsewhere.

We will ask you about your family structure at the first visit.

Please bring information regarding your family members, starting from grandparents to grandchildren, as well as details about their diseases and the year of onset.

3. Payment for CGP Tests

Payment can also be made by credit card.

(1) CGP Tests Covered by National Health Insurance

In order for National Health Insurance to cover the cost of the test, the patient must receive an explanation of the test results in person at our hospital's outpatient department (**an explanation of test results cannot be provided while confined at a different hospital**).

CGP Tests Covered by National Health Insurance

The cost of treatment following tests, such as medication, is not included in the cost of the test.

	OncoGuide™ NCC Onco Panel System	FoundationOne® CDx Cancer Genome Profile	FoundationOne® Liquid CDx Cancer Genome Profile
Cancer Genome Profiling Test	Payment is required when applying for the test . The cost varies depending on the patient's share of medical expenses under insurance. For patient's paying 30%, the cost, including tax, will be approximately ¥150,000 . * High-Cost Medical Expense Benefit or Eligibility Certificate for Ceiling-Amount Application will be applied.		
Cancer Genome Profiling Assessment	Payment is required when test results are explained. The cost varies depending on the patient's share of medical expenses under insurance. For patient's paying 30%, the cost, including tax, will be approximately ¥40,000 . * High-Cost Medical Expense Benefit or Eligibility Certificate for Ceiling-Amount Application will be applied.		
If Test is Canceled	Please note that even if the sample is unsuitable for genetic analysis (e.g., due to the poor condition of the sample) and the test is canceled, we cannot refund the cost of CGP Tests . Thank you for your understanding.		

(2) CGP Tests Not Covered by National Health Insurance

If you wish to take this test on the day of your first visit, please be prepared to pay the following.

Test	Cost
Guardant360	¥421,740 (Incl. tax)

The cost of treatment after undergoing the tests, such as medication, is not included in the cost of the test.

4. Specimens Used in the Test (Only for gene panel tests using tissue samples)

If you are considering applying for the test, please prepare the specimen to be used in the test in advance and submit it to our hospital. **Please provide your doctor with the attached Pathological Tissue Sample Request Form for Cancer Gene Panel Testing, as it contains details regarding the specimen to be prepared and the shipping destination.**
